SKILLS

- **Front-end development**: HTML5, CSS3 (TailwindCSS, SCSS, CSS-in-JS), JavaScript & TypeScript, React.js (Functional client & server component, Next.js, hooks, Redux, Framer-motion), GSAP, API Integration (REST, React Query, Axios), Unit test (Jest, Vitest, RTL)
- **UI/UX**: Figma, Marvel
- **CI/CD**: Jenkins, SonarQube
- **Soft skills**: Problem-solving through identification, teamwork and communication, English proficiency
- **Versioning**: Git, Github, Gitlab

EXPERIENCE

- **Frontend Developer |** July 2021 – February 2024
  PT Telkom Indonesia Tbk | Jakarta Selatan, Indonesia
  - Joined Telkom Agreeculture during their initial ecosystem development phase. **Contribute to development by building a library of reusable and responsive React components** slicing from Figma designs**,** while acting as the **squad's representative bridging cross-team communication**
  - **Collaborated with cross-functional teams (BE, QA, and PO) at Agile development methods**, and **provided clear concise task descriptions** for each task handoff.
  - **Refactored and built new features on top of Next.js and a custom React.js setup** for Agreeculture Dashboards (Personal & Business) on the web, resulting in a noticeably **faster and more responsive user web experience**.
  - **Maintained codebase quality** for Agreeculture through **code review** and **creating a tests suite**, while **overseeing the CI/CD pipeline**.
  - **Mentored** multiple interns in FE development fields (**Reactjs & Nextjs**).
  - Leveraged various tools and libraries including React.js/Next.js, Tailwind CSS, Styled-components, Postman, Axios, Redux, Jenkins, SonarQube, Jira, and Trello.

EDUCATION
